

Ticket ID	Alert Message	Severity	Details	Ticket status
A-2703	SERVER-MAIL Phishing attempt possible download of malware	Medium	The user may have opened a malicious email and opened attachments or clicked links.	Escalated

Ticket comments
<p>This ticket describes a phishing email sent from an untrusted domain (76tguyhh6tgftrt7tg.su) containing a password-protected executable attachment (bfsvc.exe, hash 54e6ea47...f6b). The attachment's SHA256 hash was verified as malicious via VirusTotal. Because the email exhibits multiple phishing indicators (suspicious sender, grammatical errors, and a confirmed malicious payload) and is Medium severity, I am escalating for Level-2 review.</p>

Additional information

Known malicious file hash:
